Subject: Sex and lots of it

You are on An ultimatum dear boy. I want sex three times at night and twice in the morning or I won't talk up IOU again. I've been sex starved. For a year since we met. I'm miserable and depressed about it. If any man doesn't fancy me they are either mad or gay or both. I'm down to my biggest black suit having been on the starvation diet. You of these mad shows and globetrotter yet globe six months if the year and oh mad places like Australia. Fuck knows why when you could be a proper actor. Just do not ask me why. Anyway next weekend is iour last chance cos this sexual starvation is yorture against ghe humAn rights act and terrible. I've never been so sec starved in all my born days. It's mentally depressing. F. I hate typing too.
